

# Class 16

October 10, 2022

Vineet Gandhi Class

Discussed:

- Clustering
  - Hierarchical clustering
    - \* Agglomerative / Bottom-up
      - Single link clustering
      - Complete link clustering
      - Average link clustering
    - \* Divisive / Top-down
    - \* For a fixed number of clusters, find the best configuration
      - K means clustering
